April 10, 2017 - Stripers at Chains

My wife and I fished from shore near the Chains parking area near the dam on April 7. We caught more than 20 stripers in two hours. We quit because we had as many as we could carry back up the hill. We got them on anchovies and on Berkley Gulp 3-inch white minnows, but they were so aggressive I think they would have taken anything. The biggest were 26 inches and the smallest about 21. The bigger ones were fatter and healthier than the smaller fish.
