Hey Wayne, As promised here's the report from our trip over Memorial Weekend. Trip dynamics are always a whole lot different when you have a surplus of younger kids and extra people. This prevented us from being on the water early and for as long as I normally would too. With that in mind we primarily fished for stripers at the mouth of halls and walleye from bullfrog to cedar. We caught about 40 stripers during the trip, most were caught at the entrance to halls and the rest were caught by accident while bouncing jigs for walleye. We did well on walleye for 2 days by chasing shade in the main channel between bullfrog and cedar. Really any part of the channel that had anything other than slick rock held walleye. We used 3/8 ounce jig heads with any brand of brown or green single tail grubs. We also tipped our jigs with a small piece of crawler. I'll send a couple pics. Thanks Wayne
