Schwab, Robert < rschwab@tristategt.org > Apr 24 (7 days ago) to me We fished Friday 1/2day to Sunday Bullfrog halls bay area. Targeting walleyes, mostly used bottom bouncers with 3 hook crawler harness and spinners. Chartreuse ,brass and silver blades all caught walleyes. Most fish were caught 20-45 foot range on main lake points. Bite was light at times and just felt like rod got a little heavier, watch your rod tip. Most fish were 15-17 “, most healthy , a couple of real skinny ones. A couple of them still in spawn mode. Water temp 62-63 degrees. Best bite early morning and evenings . No tagged fish dang itWe fished Friday 1/2day to Sunday Bullfrog halls bay area. Targeting walleyes, mostly used bottom bouncers with 3 hook crawler harness and spinners.
